Six Months ended June 30, 2019 and 2018

1. NATURE OF OPERATIONS

Zephyr Minerals Ltd. and its wholly owned subsidiary, Zephyr Gold USA Ltd., (collectively, the "Company") is an exploration stage mining company. The Company is incorporated in Canada and is based in Nova Scotia, Canada. The Company's head office is located at 1301 - 1959 Upper Water St, Halifax, Nova Scotia Canada B3J 3N2.

The Company is a publicly listed company continued under the Canada Business Companies Act with limited liability under the laws of Canada. The Company's shares trade on the Toronto Stock Venture Exchange ("TSX-V").

2. BASIS OF PRESENTATION AND GOING CONCERN

Basis of presentation

These condensed consolidated financial statements, including comparatives, have been prepared using the same accounting policies and methods as those used in the Company's consolidated financial statements for the year ended December 31, 2018. These condensed consolidated financial statements are in compliance with International Accounting Standard 34, Interim Financial Reporting ("IAS 34"). Accordingly, certain information and footnote disclosure normally included in annual financial statements prepared in accordance with International Financial Reporting Standards ("IFRS"), as issued by the International Accounting Standards Board ("IASB"), have been omitted or condensed. The preparation of financial statements in accordance with IAS 34 requires the use of certain critical accounting estimates. It also requires management to exercise judgment in applying the Company's accounting policies. The areas involving a higher degree of judgment or complexity or areas where assumptions and estimates are significant to the financial statements have been set out in the Company's consolidated financial statements for the year ended December 31, 2018. These condensed consolidated financial statements should be read in conjunction with the Company's consolidated financial statements for the year ended December 31, 2018 which are filed at www.sedar.com

ZEPHYR MINERALS LTD.
(An Exploration Stage Company)
Notes to the Unaudited Condensed Consolidated Interim Financial Statements

Six Months ended June 30, 2019 and 2018

Going Concern

The Company holds a 100% interest in mineral claims in Colorado, USA, collectively referred to as the Dawson-Green Mountain property (the "Property"). The Dawson section ("Dawson"), located at the eastern end of the Property comprises an advanced gold project with exploration potential. The Green Mountain section ("Green Mountain"), located at the western end of the Project, is prospective for copper and gold. The El Plomo section ("El Plomo") forms the central portion of the Property and is believed to be prospective for Broken Hill Type ("BHT") silver-lead-zinc mineralization. The Company's objective is to explore and evaluate these mineral claims to determine whether the properties contain economic resources warranting a development program.

As at June 30, 2019, the Company has cash of \$493,118, working capital of \$611,201 and shareholders' equity of \$4,561,750. The Company's financial statements as at June 30, 2019 have been prepared on a going concern basis, which contemplates the realization of assets and the settlement of liabilities and commitments in the normal course of business.

Management of the Company concluded that at June 30, 2019, the Company did not have sufficient funds to meet its corporate, administrative and property obligations for the next 12 months. In order to alleviate the situation, the Company intends to raise additional capital. Currently the Company is required to make minimum annual payments of approximately US\$33,835 to keep the Dawson project in good standing and \$5,115 to keep the Green Mountain claims in good standing. The Company's 2019 obligations have been paid. In assessing whether the going concern assumption is appropriate, management takes into account all available information about the future, which is at least, but not limited to, 12 months from the end of the reporting period. In order to develop the Dawson project, the Company will need to raise additional capital. If the Company is unable to raise additional capital in the future, the Company may need to curtail operations, liquidate assets, seek additional capital on less favourable terms and/or pursue other remedial measures. These financial statements do not include any adjustments related to the recoverability and classification of assets or the amounts and classification of liabilities that might be necessary should the Company be unable to continue as a going concern. These adjustments may be material.

Approval of the financial statements

These consolidated financial statements were approved and authorized for issue by the Audit Committee and Board of Directors of the Company on August 28, 2019.

Notes to the Unaudited Condensed Consolidated Interim Financial Statements
(Expressed in Canadian dollars)
Six Months ended June 30, 2019 and 2018

On October 31, 2012 the Company announced it had closed a gold property acquisition with Celtic Minerals Ltd. ("Celtic Minerals") to purchase a 100% interest in Dawson. The acquisition was done by way of a share purchase agreement, whereby Zephyr acquired 100% of Celtic Gold Ltd. ("Celtic Gold"), a Colorado company which holds title to Dawson. Celtic Gold was subsequently renamed Zephyr Gold USA Ltd. ("Zephyr USA").

Dawson comprises 57 contiguous unpatented lode mining claims, and eight patented lode mining claims and one patented placer claim. Dawson encompasses five gold exploration areas which are, from east to west: the Sentinel zone, the Dawson zone, the Copper King zone, the Windy Gulch zone and the Windy Point zone. Dawson forms the eastern portion of the Dawson-Green Mountain Property which is located in west-central Colorado, 9.5 km southwest of Canon City in Fremont County. Zephyr holds a 100% interest in the unpatented claims, and 50% interest in the eight patented claims, and a 50% interest in one patented placer claim, which constitute Dawson.

The 50% of the eight patented lode mining claims not held by Zephyr is leased by Zephyr through a "Mining Lease and Agreement" which effectively gives Zephyr 100% control of these claims. Twenty-one of the 57 unpatented claims, the eight patented lode mining claims and the 50% interest in the one patented placer claim are subject to a sliding scale Net Smelter Return ("NSR") whereby Zephyr agrees to pay up to a 3% NSR as contemplated in the Mining Lease and Agreement.

Zephyr USA is currently required to make annual advance royalty payments in terms of its Mining Lease and Agreement in the amount of US\$25,000 per year. These advance royalties can be applied in the future to reduce the actual production royalty expense incurred. The Company paid and recorded the 2019 obligation in fiscal 2018. To date Zephyr USA has made advance royalty payments totalling US\$454,000 which can be so applied. Zephyr USA is also obliged to make a payment of US\$90,000 in the event of embarking on an underground program.

In 2018, the Company expanded its holdings in west-central Colorado by acquiring 77 unpatented lode mining claims and one patented lode mining claim located approximately 3.2 km west of Dawson, forming the Green Mountain section of the Dawson-Green Mountain Property. The one patented claim was purchased for US\$25,000 in an arm-length transaction and the 77 unpatented lode-mining claims were acquired through staking. Zephyr holds a 100% ownership in these claims with no overriding royalties. Zephyr USA is required to make annual maintenance payments of \$165 to the State, for each for the unpatented claims.

In 2019, the Company entered into a mining lease agreement with the State of Colorado for a 259 hectare (640 acre) parcel of land referred to as the El Plomo section, located in the central area of the Property and contiguous with Dawson and Green Mountain. Under the terms of the mining lease agreement with the State of Colorado Zephyr USA is required to make annual payments of US\$1,920.

ZEPHYR MINERALS LTD.**(An Exploration Stage Company)****Notes to the Unaudited Condensed Consolidated Interim Financial Statements****(Expressed in Canadian dollars)****Six Months ended June 30, 2019 and 2018**

The Dawson-Green Mountain property now comprises three distinct sections from east to west referred to as Dawson, El Plomo and Green Mountain, which cover an area of 1,388 hectares (3,430 acres) hosting a prospective mineralized trend over 12 km (7.5 miles) long.

7. RELATED PARTY TRANSACTIONS

Rent expense of \$1,500 (2018 - \$1,500) during the quarter was paid to an officer of the Company.

Transactions were in the normal course of operations and were measured at the exchange amounts, which are the amounts agreed to by the related parties. Included in accounts payable and accrued liabilities at June 30, 2019 is \$6,070 due to parties related to officers and directors.

The remuneration of directors and other members of key management personnel during the six months ended June 30, 2019 and 2018 were as follows:

	2019	2018
Salaries and consulting fees	\$ 70,600	\$ 40,250
Share-based payments	102,920	-
	\$ 173,520	\$ 40,250

- (i) Share-based payments are the fair value of options granted to key personnel and directors.

8. FINANCIAL INSTRUMENTS

The Company has designated its cash and cash equivalents as fair value through income or loss; accounts receivable are classified as loans and receivables; and accounts payable and accrued liabilities as other financial liabilities.

Management of capital risk

The Company manages its capital structure and makes adjustments to it, based on the funds available to the Company. The Company considers capital to be cash and cash equivalents. The Board of Directors does not establish quantitative return on capital criteria for management, but rather relies on the expertise of the Company's management to sustain future development of the business. Additional funds will be required to finance the Company's Exploration and Evaluation Assets. Management reviews its capital management approach on an ongoing basis and believes that this approach, given the relative size of the Company, is reasonable.

Fair value

The book value of cash and cash equivalents and accounts payable and accrued liabilities all approximate their fair values at the balance sheet dates, due to the relative short-term maturity of the instruments.

Credit risk

The Company is exposed to credit risk with respect to its cash and accounts receivable. The credit risk associated with cash is minimal as cash has been placed with a major Canadian financial institution with strong investment-grade ratings by a primary ratings agency. The Company is not exposed to significant credit risk with respect to accounts receivable, as the entire amount due is from a government agency.

Liquidity risk

The Company's approach to managing liquidity risk is to arrange equity financings in a timely manner so as to ensure that it will have sufficient liquidity to meet liabilities when due. As at June 30, 2019, the Company had a cash balance of \$493,118 to settle current liabilities of \$60,065. All of the Company's financial liabilities have contractual maturities of 30 days or are due on demand and are subject to normal trade terms. Other than as discussed herein, the Company is not aware of any trends, demands, commitments, events or uncertainties that may result in the Company's liquidity or capital resources either materially increasing or decreasing at present or in the foreseeable future.

Market risk

Market risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market prices. Market risk comprises three types of risk: interest rate, foreign currency risk and other price risk.

- (a) Interest rate risk
The Company is not exposed to significant interest rate risk due to the short-term maturity of its monetary assets and liabilities.
- (b) Foreign currency rate risk
Although the Company's principal exploration asset is based in the United States of America, the low annual maintenance costs have led the Company to conclude that it does not believe it is exposed to any significant foreign currency risk at the present time.
- (c) Other price risk
Other price risk is the risk that the fair or future cash flows of a financial instrument will fluctuate because of changes in market prices, other than those arising from interest rate risk or foreign currency risk. The Company is not exposed to other price risk.

Financial instruments disclosure requires a statement of the inputs to fair value measurements, including their classification within a hierarchy that prioritizes the inputs to fair value measurement. The three levels of fair value are:
